## INTRODUCTORY.

---

### *To the Patrons of the Illinois Year Book and Almanac*

The publishers of the DONNELLEY, GASSETTE & LOYD ILLINOIS YEAR-BOOK AND ALMANAC, present you with the first book of the kind which has ever been issued for the State of Illinois, and they have sought to make a complete manual for Farmers, Lawyers, Merchants, Politicians, and all others who desire statistical information.

They do not claim that it is perfect, but bespeak for it such consideration as you are willing to give for whatever of merit it may contain.

The astronomical calculations are of great value, having been made especially for the State of Illinois by Prof. E. Colbert, one of our most competent astronomers.

The time when it was determined to issue the Year-Book and Almanac was so near the date of its publication, that it has been found quite impossible to obtain all the information which the publishers would like to present you. The record of the events of the year they have obtained from the *Chicago Evening Journal*; next year they will give their own.

The publishers promise that the Year-Book and Almanac for each succeeding year shall be more perfect than the preceding one.

## ECLIPSES.

There will be three eclipses during 1879—two of the Sun and one of the Moon; but they are not of much interest to the people of Illinois.

January 22d, at 6 o'clock a. m. the Sun will be eclipsed. The phenomenon will be annular along a narrow belt extending from East Longitude 8½° and South Latitude 27½° to 141½° east of Washington and 7½° north. It will be visible as a partial eclipse to a distance of about 35° on each side of that belt. The area includes about two-thirds of South America and the Southern half of Africa.

July 19th, at 3 a.m., there will be another annular eclipse of the Sun; the central line running from Longitude 57½° east and Latitude 7½° north, to 175½° east, and 23½° south. It will be visible as a partial eclipse to a large part of the South Atlantic Ocean, nearly the whole of Africa, and Southern Europe and Asia.

December 28th, at 10 a.m., the Moon will be eclipsed, being at that time below our horizon.

## THE PLANETS.

**VULCAN.** The transit of an intra-mercurial planet across the Sun may be expected to occur September 18th, but it may be too early in the day to be visible from this State.

**MERCURY** will attain his greatest elongations from the Sun as follows; West, rising before the Sun, January 16th (24°); May 14th (28°); September 9th (18°); December 28th (22½°).

East; setting after the Sun, March 29th (19°); July 27th (27°); November 20th (22°).

The most favorable time for seeing Mercury, will be in the early evening of March 29th, if the weather be fair. At that date Venus will be about 9° farther east than Mercury.

**VENUS** will be an evening star during more than two-thirds of the year. Her superior conjunction occurring December 9th, 1878, she will be nearly half an hour east of the Sun at the opening of the year. On the 23d of January she is in conjunction with Jupiter. March 2d she will be 1½° north from Saturn. April 15th, just south of the Pleiades; July 8th, is 15° north from Uranus. Her greatest elongation occurs July 15th, and greatest brilliancy August 19th. She will be in inferior conjunction September 23d, and greatest brilliancy, rising before the Sun, October 30th.

**MARS** will be a morning star, rising before the Sun, till November 12th, the date of his opposition, when he will be about 46,000,000 miles distant from the earth, and will be watched by astronomers near that date. His recently discovered moons will probably be "picked up" again, and their periods of revolution determined with great accuracy.

In the morning of November 15th Mars will pass only 12' north of No. 53 in Aries; and the evening of November 29th only 1' of arc south from Rho prime, in the same constellation. Mars will be an evening star during December.

**JUPITER** will be in conjunction with the Sun February 7th, and in opposition August 31st. During the last three months of the year he will be conspicuous in the evening sky in the constellation Aquaries, about 10° south from the Ura.

**SATURN** is in conjunction with the Sun March 26th, and in opposition October 5th. The last three months of the year he will be visible in the evening sky as a star of the first magnitude.

**JUPITER AND SATURN.**—On page opposite we give a diagram showing, on a scale of about 10° to the inch, the apparent paths of these planets among the more prominent fixed stars during the year. The month names are placed opposite the position of the planet on the 1st of the month. These two bodies are rapidly approaching conjunction. That event will occur about April 21, 1881, at which time Saturn, Jupiter, the Sun, and Earth, will all be nearly on one straight line in the heavens.

November 20th Jupiter will pass only 96 seconds of arc south of the star Sigma, in Aquaries. The apparent distance between the two will then be only about two diameters of Jupiter.

Mars passes through the region represented on the map, during May, June, and July; and Venus in February and March.

**URANUS** will be in opposition February 20th, and may be seen during March as a star of the 6th magnitude, about 3° northwest from Rho Leonis.

**NEPTUNE** will be in opposition to the Sun November 3d.

## OUR CALENDAR.

The three right hand columns of the pages for each month give the times of the rising and setting of the centers of the Sun and Moon, at Springfield, the State Capital. The timepiece is supposed to be 7 m. 45 s. slower than Chicago mean time.

All the other data are reduced to mean time at the Dearborn Observatory, Chicago, which is 5 h. 50 m. 26 s. slower than Greenwich, and 0 h. 42 m. 14 s. slower than Washington mean time.

The upper limbs of the Sun and Moon rise 1 m. earlier and set one minute later; the lower limbs rise 1 m. later and set 1 m. earlier; than the times given in our calendar.

The right ascension of the mean Sun (given in the fourth column for each noon) added to the solar time past noon gives the sidereal or star time.

From the Right Ascension of a Planet or Star (adding 24 hours, if necessary), subtract the Right Ascension of the Mean Sun—given in the fourth column. The remainder is the time after noon when the Planet or Star is on the meridian above the Pole.

### PERIHELION AND PESTILENCE.

Since the commencement of the Christian era, the perihelia of the four great planets of the solar system—Jupiter, Uranus, Saturn, and Neptune—have not been coincident. But this is about to occur, and, in the language of Dr. Knapp, who has traced the history of the greatest epidemics that ever afflicted the human race to the perihelia of these planets, there will soon be "fifely times for the doctors." The theory is that when one or more of the large planets is nearest to the sun, the temperature and condition of our atmosphere are so disturbed as to cause injurious vicissitudes, terrible rains, prolonged drouths, etc., resulting in the destruction of crops, and pestilences among human beings and domestic animals.

Dr. Knapp has collected a mass of statistical data, all going to show that perihelion data have always been marked by unusual mortality, and that sickness and death have invariably corresponded with the planets in perihelion at the same time. The revolution of Jupiter round the sun is accomplished in a little less than twelve years, of Saturn in a little less than thirty years, of Uranus in about eighty-four years, and of Neptune in about one hundred and sixty-four years. If it be true, therefore, that the perihelia of these planets occasion atmospheric conditions unfavorable to life, pestilential periods should occur once in a dozen years, and aggravated and still more wide-spread epidemics at longer intervals. In tracing the history of epidemics for more than two thousand years, Dr. Knapp finds the facts in all cases to validate the theory. Thus in the sixth and again in the sixteenth centuries, three of these planets were coincident in perihelion, and those were the most pestilential times of the Christian era.

But soon we are to have, for the first time in two thousand years, all four of these planets against us. They will be at their nearest approach to the sun in or soon after 1880, so that for a few years, say from 1880 to 1885, the vitality of every living thing will be put to a severe and trying ordeal. Some persons think they see, in the signs of the times, evidences of the great disasters in the immediate future. The excessive heat, the unexampled cold, the prevalence of flood and drought, the epidemic at longer intervals. In tracing the history of epidemics for more than two thousand years, Dr. Knapp finds the facts in all cases to validate the theory. Thus in the sixth and again in the sixteenth centuries, three of these planets were coincident in perihelion, and those were the most pestilential times of the Christian era.

Well, "to be forewarned is to be forearmed." Accidents excepted, we know very well that the persons of more vigorous constitutions and more hygienic habits will have the better chance to survive whatever adverse influences the extraordinary perihelia will occasion. It is well known to physicians that, in all pestilences, plague, typhus, small pox, cholera, murrain, etc., the intemperate, the dissipated, and those whose sanitary conditions were bad, furnished the victims.

We do not write to alarm anyone, nor to make a sensation. We state the facts which all history attests. Readers can judge for themselves what importance to attach to the subject. That the conjoint perihelion of all the large planets of the solar system, one of which, Jupiter, is a thousand times as large as the earth, must disturb our atmosphere and temperature very considerably, is probable; that this disturbance must be injurious to health and life, is certain; and that these periods have heretofore been pestilential, is a matter of record. How much we shall suffer during the next dozen or fifteen years, depends very much upon how nearly we live a life in accordance with the laws of life.—Science of Health.

## Suggestions from the Rules of the Court:

**Rule 1—Writs of Error and Supersedeas.**—No supersedeas will be granted, unless a transcript of the record on which the application is made be complete, and so certified by the clerk of the court below, and the requisite bond be entered into and filed in the office of the clerk of this court, according to law, with an assignment of errors written on or appended to the record. And on every application for a supersedeas, an abstract of the record, with a brief containing the points and authorities relied upon, and pointing specifically to those portions of the record upon which the alleged errors arise, with such record, shall be presented to the court or judge to whom the application is made. Every such application, whether made in open court or to a justice in vacation, must be accompanied by an affidavit of the proposed securities, or of some other credible person, justifying the sufficiency of bail, sworn to and properly certified. **Writs of Error** shall be directed to the clerk or keeper of the record of the court in which the judgment or decree complained of is entered, commanding him to certify a correct transcript of the record to this court; but where the plaintiff in error shall file in the office of the clerk of this court a transcript of the record, duly certified to be full and complete, he may, at his option, send such writ to the clerk of the court of the inferior court, but such transcript shall be taken and considered as a due return to said writ. **The first day of each term** shall be return day, for the return of process. And no party shall be compelled to answer or prepare for hearing, unless the *scire facias* shall have been served ten days before the return day thereof; nor shall a defendant be at liberty to enter his appearance and compel the plaintiff to proceed with the cause, unless he shall have given the plaintiff ten days' notice, before the term, of his intention to enter his appearance and have the cause proceed to a hearing. **The party or his attorney may, by *præcipe*, indicate to the clerk, and direct what of the files of the cause shall be copied into the record.** **Time for Filing Records.**—No case brought to this court by appeal, shall be placed on the court docket for hearing, unless the record is filed within the time now prescribed by law, or within the further time allowed by the court for

filing the record; except, in extraordinary cases, the court, upon special application, may order a cause to be placed on the hearing docket.—**Rule 13.**—No case which may be brought to this court on writ of error shall be placed on the court docket for hearing, unless the record shall be filed on or before the second day of the term, or within such further time as may be allowed by the court for filing the same, except, in extraordinary cases, the court, upon special application, may order a cause to be placed on the hearing docket.—**Rule 14.**—**Removing Records.**—No person shall remove from the office of the clerk any record of this court, except upon special leave granted for that purpose.—**Rule 17.**—**Motions.**—Motions may be made at the opening of court each day immediately after the decisions of the court are announced; but at no other time, unless in case of necessity, or in relation to a cause when called in course. Motions for orders of course will be entered by the clerk, with orders of course made thereon, viz.: For hearing, taking under advisement, and entering decision, in such manner that a perfect record may be kept of each step in the cause.—**Rule 21.**—**Abstracts.**—In all cases, the party bringing a cause into this court shall furnish a complete abstract or abridgment of the record therein, referring to the appropriate pages of the record by numerals on the margin, and shall cause such abstracts to be printed in a neat and workmanlike manner, with small-pica type and leaded lines, on one side only, upon white foolscap paper, leaving a margin at least two inches in width on the left-hand side of each sheet. Six copies of such printed abstract shall be filed in each case—one for each of the justices, one for the defendant in error or appellee, and two to be filed with the record.—The defendant's counsel shall be permitted, if he is not satisfied with the abstract or abridgment furnished by the plaintiff's counsel, to file and to furnish each of the justices of this court with such further abstracts as he shall deem necessary to a full understanding of the merits of the cause.—**Briefs.**—Printed briefs will be required in all causes, whether argued orally, in full or in part only, or when submitted on briefs without oral argument. The briefs required should contain a short, clear statement of the points, and the authorities in support thereof; and in citing cases from published reports, counsel will be required not only to give the book and page, but also the names of the parties as they appear in the title of the reported case; and the names of counsel filing brief or abstract must appear to the same. But the filing of a printed brief shall not preclude the party from filing full printed or written arguments in support of his brief of points and authorities, provided he does so within the time his printed brief is required to be filed.—**Rule 24.**—**Number of Copies.**—Six copies of the briefs must be filed in each case—one for each of the justices, one for the opposite party, and two to be filed with the record.—**Second District.**—The following Counties: Boone, Bureau, Carroll, De Kalb, Grundy, Henderson, Henry, Du Page, Iroquois, Jo Daviess, Kane, Kankakee, Kendall, Knox, Lake, LaSalle, Lee, Livingston, Marshall, McHenry, Mercer, Ogle, Peoria, Putnam, Rock Island, Stephenson, Stark, Warren, Whiteside, Will, Winnebago, and Woodford.

**Trial Calendar.**—For each term of this Court the Clerk will prepare a Calendar containing the causes and issues of fact to be tried by a jury, in which Calendar all special assessment cases shall be first set down, and next all bastardy cases; after which shall be set down all causes noticed for trial, as hereinafter mentioned in the order in which they stand on the general docket. Said Calendar shall be made up by the Clerk on or before the Thursday immediately preceding the first day of each term of this Court; and a certain number of cases shall be set for trial for each day, until all the causes on said Calendar are assigned for trial.

**Trial Notices.**—Every original suit and every appeal case may be placed upon the Trial Calendar by filing with the Clerk a written or printed request to that effect on or before the Tuesday immediately preceding the first day of each term; and in no case shall it be necessary to serve a trial notice upon the opposite party or attorney; and such causes shall stand for trial in their order upon the Trial Calendar, provided the issues are settled before such causes shall be reached for trial.

**Motions.**—After the opening of Court, and before any case on the docket shall be called, motions shall be in order. **Special Motions.**—All motions not of course shall be made in writing, and when founded on matters of fact not apparent of record, shall be based upon affidavit, to be filed with the motion. Counter-affidavits may ordinarily be filed in opposition to such motion; but counter and supplementary affidavits will not be allowed in applications for continuances, or for security for cost. **Notice.**—No motion or demurrer will be entertained or disposed of by the Court in any case in which service of process has been made upon, or appearance entered by, the opposite party, except on notice; and such notice, unless otherwise ordered, shall be in writing, and shall be given to the opposite party, or his attorney, at least one day before such motion or demurrer shall be taken up. In case of motions based upon affidavits, copies of the same also served with such notice as aforesaid, unless such original affidavits shall be filed and left with the Clerk at least one day before taking up such motion.

**Service of Rule.**—The service of rules or orders made by the Court, or the Judge thereof, in vacation, shall be by delivering a certified copy; and when either party may have appeared by attorney, service of any rule, order or notice had on such attorney shall be deemed sufficient, unless when the object is to bring a party into contempt for disobeying any rule or order; in which case service shall be had on the party personally. **Order of Motions.**—A Motion Calendar may be kept by the Clerk, upon which attorneys, desiring to call up any motion or demurrer, shall each morning enter, or cause to be entered, their names; and the same shall be called and heard in the order in which they are thus entered. **Defaults.**—When any default shall hereafter be entered for want of a sufficient plea or affidavit of merits, the same may, at the discretion of the Court, be set aside, on affidavit being filed showing that the defendant has a good defense on the merits, on such terms as the Court may direct. **Call of Calendar.**—All the causes shall be tried or otherwise disposed of in the order they are placed on the Trial Calendar, unless the Court, for good and sufficient cause, shall otherwise direct. All unexpired rules will terminate upon the call of the cause for hearing.

**B. F. Berrian**, of Quincy, the County Judge of Adams County, is a gentleman of good attainments as a lawyer, and has for recommendation the fact of an election at the hands of the people in the county in which he resides. No person without merit could have received a majority vote of the people of Adams County.

**R. S. Yocum**, Judge of the County Court of Alexander County, has the good will and esteem of the community in which he resides. The people of Cairo appreciate his sterling qualities as a man, and have confidence in his ability as a lawyer. The integrity of Judge Yocum is unquestioned, and when this can be said of any man he has reason to be satisfied.

**C. B. Dean**, County Judge of Boone County, is a resident of Belvidere. He was born in De Kalb County, Illinois, January 23, 1848, and received his education in the schools at Belvidere and Chicago, and finally at the Law School at the University of Michigan, at Ann Arbor. Judge Dean was elected County Judge for four years, November, 1877. Although the Judge's party affiliations are with the Republican party, he was elected without reference to party. He is a man of family, and is much respected in the community in which he resides, having been known by the people from his boyhood.

**H. M. Trimble**, of Princeton, Illinois, County Judge of Bureau County, was born in the County of Clinton, State of Ohio, Jan. 27, 1842. He received his education principally in the common schools in the State of Illinois, and was for a brief period of time a student at Eureka College, in this State. The Judge was admitted to the Bar Nov. 20, 1867, and was elected to the position which he now holds Nov. 6, 1877, on account of his fitness. His term will expire the first Monday of December, A. D. 1881. Judge Trimble was married to Miss Maggie S. Dakin several years ago, and has a fine family consisting of his wife and three children: Winford K., Carrie A., and Robert C. Trimble. Judge Trimble is a staunch Republican, and was elected to his present position by the party to which he belongs. He has been a resident of Bureau County since October, 1843, and formerly held the position of Master in Chancery of the Circuit Court for nine years. August 21, 1869, he enlisted in the army as a private soldier, and served until the close of the war of the Rebellion. Having enlisted as a private in Co. K, 93d Illinois, he was meritoriously promoted to Sergeant Major, then to Adjutant of his regiment, and for a term acted as A. A. Gen. of Brigade, and was mustered out of service June 23, 1865. His education was obtained in the common schools of his native County and State. He has filled the responsible office of State's Attorney, and was elected Judge of the County Court in November, 1877. His term will expire in the month of December, 1881.

**Benjamin L. Patch** is a resident of Mt. Carroll, Illinois, and was elected by the people as Judge of the County Court of Carroll County irrespective of party. This is no slight tribute to a man, being a Republican, that he should have been elected a member of the Illinois Legislature in 1861, as Judge in 1865, and successfully in 1869, and again in 1877, for a term lasting until A. D. 1881. Judge Patch was born in Susquehanna County, Pennsylvania, Sept. 13, 1828. He received his education at Hartford University, Susquehanna County, Pa., and is unmarried.

**Alexander McCaskill** County Judge of Christian County, may be addressed at Taylorville, Illinois. He is a native Illinoisan, having been born in Sangamon County, Jan. 23, 1833. cratic. He held the office of Superintendent of Public Schools for five years, and that of State's Attorney for four years, and was elected County Judge for four years in November, 1877.

**John W. Miller**, County Judge of Cumberland County, was born in Clark County, Indiana, Dec. 8, 1825. He is a farmer, and has had only such school advantages as are furnished by the common schools. He was first elected County Judge in Nov., 1873, and re-elected to the same position in Nov., 1877, by Independent and Republican voters.

**Geo. S. Robinson**, County Judge of DeKalb County, can be addressed at Sycamore. He is a man of family, was born at Derby, Orleans County, Vermont, June 24, 1824, and was educated at the same place. He is a lawyer by profession, and is recognized as a man of good ability wherever he is known. Although the Judge is a good Republican, he has been elected an Alderman and County Judge by the people where he resides, without regard to party. He has also filled the office of Master in Chancery, and has been a member of the State Board of Commissioners of Public Charity since 1869, and at this writing is Chairman of the Board. He is a genial gentleman, a good friend, and an honest citizen.

**John J. McGraw**, Judge of the County Court of DeWitt County, was born in Fairfield District, South Carolina, January 18, 1807, and was educated in the common schools of South Carolina and Alabama. D. 1877. When one can realize the antagonisms of a political life it certainly is almost marvelous that one man could have occupied so many positions of trust at the hands of one people, and that he has done so speaks volumes in praise of the man who has shared to so large a degree the confidence of his neighbors.

**Robert N. Murray**, a resident of Naperville, and County Judge of DuPage County, was born in Washington County, New York, July 26, 1815. He received his education in the old log school-house near Naperville, DuPage County, in 1831 and 1832, in the Black Hawk war in 1833, and working on the harbor improvements at Chicago with a shovel and wheelbarrow in 1842. One knowing the Judge today could hardly realize that his position as a lawyer should have been attained through so many difficulties as it has. His ability is recognized even by his enemies. He is a man of very positive character, and is never afraid to express his opinions or pay the penalty which his utterances may impose upon him. By frugality and labor the Judge has amassed a handsome fortune, and has a large landed estate in both DuPage and Cook Counties. He has filled several offices, being elected to each by his friends, although a Democrat of the old school. Judge Murray arrived at the place where Chicago now is, July 17, 1831, and from thence drove an ox team (following the Indian trail) to the place where he now resides, and at once commenced cutting house logs to build the home in which he lived for years, and the school-house where he received his early education. He was first elected County Judge by the Democratic party in 1869, and unanimously re-elected November, 1873, and November, 1877. **Milton Bartley**, County Judge of Gallatin County, was elected as a member of the Constitutional Convention of the State of Illinois from Gallatin and Saline Counties. No better testimony can be asked regarding the legal ability of Judge Bartley than that given by the people in choosing him a member of that distinguished body of legislators who framed the present Constitution of the State of Illinois, because the Constitution of 1870 occupies some of the most honorable pages on our statute books, and evince the wisdom of the people of the State in their choice of representatives. Judge Bartley was born in Floyd County, Indiana, January 7, 1819, and was educated at St. Mary's College, Marion County, Kentucky. He is married, and has four sons, three of whom are of age. Judge Bartley was an Old Line Whig till the dissolution of that party, and was a Breckenridge Democrat in 1860. When the War of the Rebellion broke out, he joined the war party, and although now a Democrat, is somewhat dissatisfied with the position of his party on financial questions, he being an advocate of hard money. He was elected as County Judge of the County Court in 1872 by the Farmers' Club, and was re-elected as an Independent, and is to-day an adherent of the Independent National Greenback party. ## Early History of Illinois.

The name of this beautiful Prairie State is derived from *Illini*, a Delaware word, signifying Superior Men. It has a French termination, and is a symbol of how the two races, the French and the Indians, were intermixed during the early history of the country. The Illinois were once a powerful confederacy, occupying the most beautiful and fertile region in the great Valley of the Mississippi, which their enemies coveted and struggled long and hard to wrest from them. By the fortunes of war they were diminished in numbers, and finally destroyed. "Starved Rock," on the Illinois River, according to tradition, commemorates their last tragedy, where, it is said, the entire tribe starved rather than surrender. The first European discoveries date back over two hundred years. They are a part of that movement which, from the beginning to the middle of the seventeenth century, brought the French Canadian missionaries and fur traders into the Valley of the Mississippi, and which, at a later period, established the civil and ecclesiastical authority of France from the Gulf of St. Lawrence to the Gulf of Mexico, and from the foot-hills of the Alleghanies to the Rocky Mountains. The great river of the West had been discovered by DeSoto, the Spanish conqueror of Florida, three quarters of a century before the French founded Quebec in 1608, but the Spanish left the country a wilderness, without further exploration or settlement within its borders, in which condition it remained until the Mississippi was discovered by the agents of the French Canadian government, Joliet and Marquette, in 1673. These renowned explorers were not the first white visitors to Illinois. In 1671—two years in advance of them—came Nicholas Perrot to Chicago. He had been sent by Talon as an agent of the Canadian government to call a great peace convention of Western Indians at Green Bay, preparatory to the movement for the discovery of the Mississippi. It was deemed a good stroke of policy to secure, as far as possible, the friendship and co-operation of the Indians, far and near, before venturing upon an enterprise which

their hostility might render disastrous, and which their friendship and assistance would do so much to make successful; to this end Perrot was sent to call together the Indian council throughout the Northwest, and to promise them the commerce and protection of the French government. He accordingly arrived at Green Bay in 1671, and procuring an escort of Pottawatamies, proceeded in a bark canoe upon a visit to the Miami, at Chicago. Perrot was therefore the first European to set foot upon the soil of Illinois. Still there were others before Marquette. In 1672 the Jesuit missionaries, Fathers Claude Allouez and Claude Dablon, bore the standard of the Cross from their mission at Green Bay through Western Wisconsin and Northern Illinois, visiting the Foxes on Fox River, and the Masquottines and Kickapoos at the mouth of the Milwaukee. These missionaries penetrated on the route afterward followed by Marquette to the Kickapoos village at the head of Lake Winnebago, where Marquette, in his journey, secured guides across the portage to the Wisconsin. One of the greatest elements in the early development of Illinois is the Illinois and Michigan canal, connecting the Illinois and Mississippi Rivers with the lakes. It was of the utmost importance to the State. It was recommended by Governor Bond, the first governor, in his first message. In 1821 the Legislature appropriated \$10,000 for surveying the route. Two bright young engineers surveyed it, and estimated the cost at \$600,000 or \$700,000. It finally cost \$8,000,000. In 1825 a law was passed to incorporate the Canal Company, but no stock was sold. In 1826, upon the solicitation of Cook, Congress gave 800,000 acres of land on the line of the work. In 1828, another law—commissioners appointed, and work commenced with new surveys and new estimates. In 1834-35, George Farquhar made an able report on the whole matter. This was, doubtless, the ablest report ever made to a Western legislature, and it became the model for subsequent reports and action. From this the work went on until it was finished in 1848. It cost the State a large amount of money; but it gave to the industries of the

State an impetus that pushed it up into the first rank of greatness. It was not built as a speculation any more than a doctor is employed on a speculation. But it has paid into the Treasury of the State an average annual net sum of over \$11,000.

The area of the State is as follows: Length, 380 miles, mean width about 156 miles. Area, 55,410 square miles, or 35,462,400 acres. Illinois, as regards its surface, constitutes a table-land at a varying elevation ranging between 350 and 800 feet above the sea level; composed of extensive and highly fertile prairies and plains. Much of the south division of the State, especially the river-bottoms, are thickly wooded. The prairies, too, have oasis-like clumps of trees scattered here and there at intervals. The chief rivers irrigating the State are the Mississippi—dividing it from Iowa and Missouri—the Ohio (forming its south barrier), the Illinois, Wabash, Kaskaskia, and Sangamon, with their numerous affluents. The total extent of navigable streams is calculated at 4,000 miles. Small lakes are scattered over various parts of the State. Illinois is exceedingly prolific in minerals, chiefly coal, iron, copper, and zinc ores, sulphur and limestone. Climate, tolerably equable and healthy, the mean temperature standing at 51 degrees Fahrenheit. As an agricultural region, Illinois takes a competitive rank with neighboring States, the cereals, fruits, and root-crops yielding plentiful returns; in fact, as a grain-growing State, Illinois may be deemed, in proportion to her size, to possess a greater area of lands suitable for its production than any other State in the Union. Stock-raising is also largely carried on, while her manufacturing interests in regard to woollen fabrics, etc., are on a very extensive and yearly expanding scale. The lines of railroad in the State are among the most extensive in the Union. Inland water-carriage is facilitated by a canal connecting the Illinois River with Lake Michigan, and thence with the St. Lawrence and Atlantic. Illinois

is divided into 102 counties; the chief towns being Chicago, Springfield (capital), Alton, Quincy, Peoria, Galena, Bloomington, Rock Island, Vandalia, etc. By the new Constitution, established in 1870, the State Legislature consists of 51 Senators, elected for four years, and 153 Representatives, for two years; which numbers were to be decennially increased thereafter to the number of six for every additional half-million of inhabitants. Religious and educational institutions are largely diffused throughout, and are in a very flourishing condition. Illinois has a State Lunatic and a Deaf and Dumb Asylum at Jacksonville; a State Penitentiary at Joliet; and a Home for Soldiers' Orphans at Normal. On November 30, 1870, the public debt of the State was returned at \$4,870,937, with a balance of \$1,808,833 unprovided for. At the same period the value of assessed and equalized property presented the following totals: Assessed, \$840,031,703; equalized, \$480,664,058. The name of Illinois, through nearly the whole of the eighteenth century, embraced most of the known regions north and west of the Ohio. French colonists established themselves in 1673, at Cahokia and Kaskaskia, and the territory of which these settlements formed the nucleus was, in 1763, ceded to Great Britain in conjunction with Canada, and ultimately ceded to the United States in 1787. Illinois entered the Union as a State, Dec. 3, 1818; and now sends nineteen Representatives to Congress. Population, 2,539,891 by the United States census of 1870.

Could we sell the coal in this single State for one-seventh of one cent a ton it would pay the national debt. Converted into power, even with the waste in our common engines, it would do more work than could be done by the entire race, beginning at Adam's wedding and working ten hours a day through all the centuries till the present time, and right on into the future at the same rate for the next 600,000 years.

**Rate of Taxation.**—The County Clerk is busy extending the taxes for 1878, and it may be of some interest to the public to know what the percentage is. The following figures show the rate in cents on the \$100 for the several taxes in the three city towns:

	N.Chicago.	S.Chicago.	W.Chicago.
State.....	\$0.33.0	\$0.33.0	\$0.33.0
County.....	86.6	86.6	86.6
City.....	2.86.3	2.86.3	2.86.3
Park.....	42.8	36.0	27.2
Town.....			15.4
Boulevard & Park.....			5.0
Total.....	\$4.48.7	\$4.41.9	\$4.53.5

The West Chicago Park tax is extended on the Assessor's original valuation. A comparison with the percentages of a year ago will show a slight increase in the rate, but when the fact is taken into consideration that the assessment last year was \$148,400,087 against \$131,983,439 this year, it will be found that the amount of taxes to be paid is not increased. The work of extending the taxes will not be completed for several weeks.

The following is the official Roster of officers for the **Grand Commandery of the State of Illinois**: R. L. McKinlay, Paris, Ill., Grand Commander; C. M. Morse, Jacksonville, Deputy Grand Commander; Rev. N. P. Heath, Danville, Grand Prelate; James G. Ellwood, Joliet, Grand Junior Warden; Haswell C. Clarke, Kankakee, Grand Standard Bearer; Dr. C. W. Dunning, Cairo, Grand Sword Bearer; J. G. Smith, 250 W. Van Buren st., Chicago, Grand Generalissimo; L. L. Barnard, 192 Clark st., Chicago, Grand Recorder; Dr. Jno. Lane White, Bloomington, Grand Warden.

**Robert L. McKinlay**, Rt. Em. Grand Commander of Illinois, was born July 14th, 1839, at Cincinnati, Ohio, and was educated at the U. S. Naval Academy, at Annapolis, Md. By profession he is an attorney at law, and was elected Grand Commander Oct. 22, 1878, until the same month in 1879.

**Chas. Moody Morse**, Deputy Grand Commander, was born July 21, 1820, at Wilton, Maine, and was educated in the common school of his native town. He is superintendent of one of the principal divisions of the Chicago, Alton & St. Louis R. R. He was elected to his present Masonic position in October, 1878.

**John Corson Smith**, Grand Generalissimo, was born Feb. 13, 1832. He is the son of a Scotch descent, and possesses the slow, patient industry and sterling integrity of the typical Scotchman. His mother is of the English race, and a woman of excellent judgment and affectionate disposition. Until his majority the son continued with his parents in Philadelphia, where he acquired such education as circumstances and a busy life would permit, and at the same time served an apprenticeship as a carpenter and builder, and worked diligently at his vocation. In 1852 he enlisted as a private in Co. I, 96th I. V. I.; was elected its Captain, and subsequently at an election by the rank and file of the entire regiment, he was chosen Major. In February, 1865, he was brevetted Colonel by President Lincoln "for gallantry, and soon thereafter promoted to the full rank of Colonel, and in June following he was brevetted Brig. Gen. by President Johnson "for meritorious services." He was married in March, 1856, to Charlotte A. Gallaher, eldest daughter of James A. Gallaher. Five children have blessed their union, four of whom still survive—three sons and one daughter. Politically, Gen. Smith has been, and is, in full sympathy with the principles of the Republican party, and an active participant in State and national politics. He has filled many important positions and was elected State Treasurer in November last. In all places, and under all circumstances, he is loyal to truth, honor and right, justly valuing his own self respect and the deserved esteem of his fellow-men as infinitely more valuable than wealth, fame or position. Few men have more devoted friends than he.

**Loyal Levi Munn**, Grand Captain General, proprietor of the Freeport gas works, was born Sept. 1, 1820, at Madrid, St. Lawrence County, N. Y. He has been a resident of Freeport since 1846, and obtained his education at that place. He is a sterling business man, and has a reputation of which any man may be proud. Besides the position held by him in the Grand Commandery, he holds that of Grand Standard Bearer of the Grand Lodge of Illinois, and M. E. Sov. Prince G. M. of Freeport Council of Princes of Jerusalem. He has filled the offices of Grand Sov. of the Grand Imperial Council Knights R. C. of R. & C., Grand High Priest of Grand Royal Arch Chapter of Illinois, Eminent Commander of Freeport Commandery No. 7. His judgment is reliable and his fidelity to his engagements commendable.

**Henry Turner**, Grand Senior Warden of the Grand Commandery, is one of nature's noblemen. Modest and unassuming, he yet possesses the wisdom of men who claim to be more than men. Born in London, Eng., Aug. 11, 1837, he emigrated with his parents to the State of Wisconsin in 1848; commenced the battle of life for himself in 1852, by coming to Chicago to earn a livelihood, and has resided in that city ever since. He has wrought nobly, and enjoys the confidence of all who know him. In business he is a magnificent tailor and a superb raper. He was a Mason in Kilwinning Lodge in 1858, and has held the

offices of Sr. Warden of his Lodge, High Priest of Corinthian Chapter, and Eminent Commander of St. Bernard C. of K. T. He has filled each office with credit to himself and honor to the fraternity.

**James G. Elwood**, Grand Junior Warden, is Mayor of the city of Joliet, and is recognized as one of the ablest city officials this thriving city of Illinois has ever had. He is a native Illinoisan, having been born at Lockport, Ills., May 6, 1839. He received a primary education in his native State, and pursued his studies at New Haven, Conn., and finally at Geneva, Switzerland, and Berlin, Prussia. He is largely engaged in the development of landed interests in Illinois, and is a general real-estate agent. He has held the positions of High Priest of Joliet Chapter R. A. M. and Eminent Commander of Joliet Commandery. His culture and ability have fitted him for the positions which he has held, and warrant any advancement which can be given him at the hands of his brethren which he is willing to assume.

**John Witbeck**, Grand Treasurer of the Grand Commandery, has been a resident of the City of Chicago since 1843, and is largely engaged in the business of a manufacturer and dealer in lumber. His business is extensive, and requires much capital. He was born in New York April 7, 1836, and received his education at Charlotteville, in his native State. He was elected to his present Masonic position this year, and formerly filled the position of Eminent Commander of Chicago Commandery with great credit and eclat.

**Gilbert W. Barnard**, Grand Recorder of the Grand Commandery, and Grand Secretary of the Grand Chapter R. A. M., was born June 1, 1834, at Palmyra, Wayne County, N. Y. He has only a common school education. His general occupation is that of a merchant. He has been a resident of the City of Chicago for thirty years, and has been a Mason for fifteen years. He is affable, discreet, and a true friend. What more need be said of any man save that he is honest, and this may truthfully be said of our subject. He has been High Priest of Corinthian Chapter R. A. M., and Eminent Commander of St. Bernard Commandery.

**Haswell C. Clarke**, Grand Standard Bearer of the Grand Commandery, was re-elected last October. He is a banker at Kankakee, and was born at Roxbury, Mass., Sept. 28, 1842. He received his education at the Latin school of his native place, and finally at Harvard College. He is a gentleman of culture, good business qualifications, and has many warm personal friends. He has held many prominent Masonic positions, from Master of the Lodge to which he belongs to president of all the higher bodies, prior to the Grand Commandery of the State in which he holds the office before referred to.

**C. W. Dunning**, M. D., Grand Sword Bearer of the Grand Commandery, is one of the very best physicians and surgeons in the City of Cairo, and, in fact, in the southern portion of this State. He is permanent Secretary of the Southern Illinois Medical Association. He was born at Auburn, N. Y., April 15, 1828. He was educated at Gambier College, Ohio. He was Eminent Commander of Cairo Commandery for four successive terms. No man can stand higher than he in the estimation of those who know him, for all the sterling qualities which make up the sum total of true manhood.

**J. L. White, M. D.**, Grand Warden, was born at Westminster, Mass., Dec. 5, 1832, and received his education in his native town. He is a regular practicing physician and surgeon, and stands deservedly high in his profession at Bloomington (where he resides) and elsewhere. To know the man is to regard him highly. He combines the qualities in himself which make the true physician and gentleman. Would that the world were full of such men. He held the position of President of the Illinois State Medical Society in 1877.

**Theodore Tuthill Gurney**, Grand Master of Illinois, is eminently fitted for the position which he now holds, judged by the application of every rule which can be applied to the conduct of a man and a Mason. He is a man of liberal education, of good ability and legal acumen. He is profoundly learned in all the tenets of Masonry, and is conservative in counsel and judgment. He will not lead others into difficulty, but will so conduct matters that the difficulties will be avoided. He is a natural leader, and his politic suavity puts everyone at ease. He possesses many positive characteristics, and is pronounced in his opinions when occasion requires. He is a Christian gentleman, and the brevity of his life reflects as much honor upon Masonry as Masonry has conferred upon him. He is peer with the best of our Masonic writers, a good father and an honest citizen. He was born at Ogdensburg, N. Y., Sept. 4, 1820. He has filled the office of Grand Commander of Illinois and is a member of the Supreme Council 33° A. A. S. G. M. for the Northern Masonic Jurisdiction of the United States. His regular occupation is that of a grain commission merchant. He has been an honored member of the Chicago Board of Trade for many years, and has maintained an unblemished reputation, notwithstanding the fact that he is thoroughly conversant with all the ins and outs of his business.

**Louis Zeigler**, Grand Senior Warden, was born in Rhenish Bavaria, Germany, July 17, 1837, and was educated at Duex Pont, Bavaria. He was Master of his Lodge for twelve years, High Priest of his Chapter for five years, and D. D. G. Master for the Fifteenth District for four years. He is deservedly a very popular Mason, and will ever be found alert to subserve the best interests of Masonry.

**Daniel W. Browning**, of Benton, Grand Junior Warden, was born October 11, 1846, in Benton, and received his education at the State University of Indiana. His profession is that of a lawyer. He was Worshipful Master of Benton Lodge five years; was District Deputy Grand Master of the Twenty-eighth Masonic District in 1875, and a member of the Committee on Appeals and Grievances in the Grand Lodge for 1876, '77 and '78, having been Chairman for the past two years.

**O. H. Miner**, Springfield, Grand Treasurer, was born in Vermont, 1825. He served as Auditor for the State of Illinois four years. Has held various Masonic positions, among which the following are the most prominent: Grand Secretary of the Grand Lodge, Grand High Priest of the Grand Chapter, Grand Royal Arch Captain of Grand Chapter, Grand Puissant of Grand Council Royal and Select Masters.

**Rev. Geo. W. Martin**, Prairie City, Grand Chaplain, was born in Portland, Maine, May 22, 1836, and is a clergyman, having received his education at Portland Grammar Schools, Wesleyan College and Concord Theological Seminary, N. H.

**Frank Hudson**, Deputy Grand Secretary, was born in Ithaca, Hempstead, England, October 11, 1837. He is a printer, and has held various Masonic positions, among which the following are the most prominent: Grand Secretary of the Grand Lodge, Grand High Priest of the Grand Chapter, Grand Royal Arch Captain of Grand Chapter, Grand Puissant of Grand Council Royal and Select Masters.

**Henry Clay Cleveland**, Grand Marshal, was born at Woodstock, Windsor County, Vermont, October 25, 1844, and was educated at Black River Academy, Ludlow, Vermont. He is a general fire insurance agent at Rock Island. He was made a Mason in Iris Lodge, December, 1865, since which time he has been Worshipful Master for four years, High Priest ten years, and Eminent Commander of Evans Commandery for six years. That Mr. Cleveland should have held these positions for so many successive years is his best recommendation, because ordinarily it requires no ordinary man to avoid the antagonisms and jealousies of holding even Masonic offices consecutively.

**Alfred Sample**, of Paxton, Senior Grand Deacon, was born November 27, 1846, in the State of Ohio; educated at Eureka and South Colleges, Illinois; is professionally a lawyer, and is State's Attorney of

## A Look Backward Over the Year that has Passed Into History.—Record of the Principal Local Events in Chronological Order.

### JANUARY.

The year opened with the usual New Year festivities, but the innocent amusements of the day had a sickening accompaniment in the brutal murder of Anton Blum by Robert *alias* "Dutchy" Weiland. Weiland entered a saloon in which Blum was playing pool. Blum took umbrage at being stared at by Weiland, and a quarrel ensued, resulting in the fatal stabbing of Blum by Weiland, who later in the year was sent to Joliet for two years. Jan. 3, two days after this, the city authorities were all perplexed over the necessity of issuing city scrip. It was declared that the city treasury could not be replenished by such paper, and that, if issued, it would be discounted all the way from 15 to 25 per cent. Jan. 4, the next day, many of the city officers presented interesting annual reports, and the officers of the Protection Life Insurance Company were indicted for conspiring to defraud its policy-holders. Professor Sumner, of Yale, lectured before a large audience in Farwell Hall on the evening of the 7th, upon the "Dollar of our Dads," a subject of more than usual interest at that time. The same day Messrs. Otis and Ward, receivers respectively of the defunct State and "Beehive" savings banks, began long contests in the rights over assets claimed by each. Judge Drummond, on the day following, overruled the pleas of the "second batch" whisky men. They had asked for immunity for the payment of assessments aggregating \$426,873, but the court would not grant the prayer. Just about this time the banks, the towing associations, the Horticultural Association, the Nursery and Half-Orphan Asylum, and other organizations elected officers for the year. If it had not been for the poultry show on the 10th, two quiet and uninteresting days would have passed. *Quo warranto* proceedings to oust the newly-appointed West Park Commissioners were begun on the 11th, and on the 21st Judge McAllister decided that Governor Cullom had no power to remove the old officers and appoint the new ones. Jan. 14, State Senator Buehler was stabbed by Michael Marso. At the time it was feared that the wound was fatal. The two had had a dispute about the payment of a mortgage, which Marso ended by stabbing the Senator in the abdomen. Rumors were current on the 15th that the absconding City Collector, Von Hollen, was about to return from Canada, and that he would squeal on some parties who up to that time bore a good reputation. He did not come. The events of the 17th were the first annual banquet of the Sons of Vermont, and the meeting of Vessel Insurance Underwriters to fix up rates. The 19th was a marked day. In the evening George Sherry and Jeremiah Connelly, while drunk, used threatening language to Hugh McConville. They also threatened his niece, who was walking, and in attempting to carry out some threat, were resisted by McConville, whom one of the two fatally stabbed. They expiated the crime several months later on the gallows. Two days after the murder they were arrested, and held by the Coroner's jury without bail to the Criminal Court. On the 23d, Clark and Connelly, the other expert members of the West Park Board, were reinstated, and Carl Namuth was arrested for stealing some 2,000 letters from letter-boxes. From the 24th to the 26th the 13,000 depositors in the State Savings Institution took a lively interest in the effort which was being made to settle the large Robert Bayard stock indebtedness. No final order, however, was made at the time by Judge Williams, before whom the case was tried. On the 28th the trial of Miss Elvina McKee for shooting the Constable James McElligott was begun in the Criminal Court. McElligott had attempted to serve a distress warrant upon Miss McKee, though the warrant named another party. She fired a shot which proved fatal in a few hours. A large number of property-owners on the South Side, on the 28th, filed bills for injunctions against South Town Collector Kimball, to restrain the collection of 20 per cent. of their per-

sonal-property tax, which had been improperly added to the South Town assessment. The funeral of John A. Huck, who died on the 26th, took place on the day following. On the last day of the month the Chicago Mining Board was organized; and Judge Williams allowed Receiver Ward to begin suits against the stockholders of the Republic Life Insurance Company. There were 573 deaths in the city during the month.

### FEBRUARY.

Dr. Reynolds, the red-ribbon reformer, arrived in the city on the first of this month. The experts who had been appointed to make an examination of the assets of the State Savings, made a report which only confirmed the rumors in regard to the emptiness of its treasury. The jury in the McKee-McElligott murder case on the same day declared Miss McKee not guilty of murder. The Council on the 3rd of the month received the Comptroller's annual report, and began work on the estimates. The injunction against the collection of South Town taxes was denied by Judge Farwell on the seventh. On this day occurred the death of Rev. Fernando Coosemans, S. J. Martin O'Brien, a learned but erratic Irish patriot, died on the 9th. The authorities on the same day learned of the decision of the Supreme Court to the effect that the city could not anticipate its revenues, and the officers were naturally dismayed by the gloomy financial outlook. Connelly and Sherry's trial began the next day. Connelly endeavored to secure a separate trial. On the 13th there was a reaction from the tendency into which the City Fathers had been thrown by the Supreme Court decision. The day after the city was struck another blow by Land Commissioner Williamson, who decided in favor of the Valentine claim to Dearborn and a part of Lake Parks. Services were held in the Catholic Churches on that day in honor of Pope Pius IX. On the 14th the red-ribbon movement was at this time agitating the temperance people, and the saloon-keepers organized an opposition ticket on the 15th. The next day six buildings were burned in Groveland Court; loss, \$4,000. The Fire Patrol formally opened their quarters on this day, and arguments were begun in the whisky cases, in which a *nolle pro.* was sought to be entered because of the promise of immunity. The suit against the sureties on David A. Gage's bond as City Treasurer was begun on the 19th in Judge Rogers' court. On the next day Nelson Morris' packing-house was burned. The loss was estimated at \$120,000. On the same day Judge Moore enjoined Collector Kimball from collecting the 20 per cent. illegally added to the South Town personal property assessment by the County Clerk George Sherry. On the 22d the 2d charged Connelly with being the murderer of Hugh McConville. The day was an eventful one to a large number of students in Hahnemann and Bennett Medical Colleges who were graduated to practice their profession. The Democratic State Central Committee met at the Palmer House on Washington's birthday. Sherry and Connelly were again on the 23d, declared guilty of murder in the first degree. Efforts were made the succeeding days to get a new trial, but in vain. The Rush Medical College Commencement took place on the 26th. In the evening a large fire occurred at 84 Lake Street—Cameron & Amberg's—by which a loss of \$35,000 was sustained. The Cullerton whisky case was appealed to the Supreme Court on the 27th. On the last day of the month the deposits of the State Savings drew their first dividend of 10 per cent. There were 481 deaths in the city during this month.

### MARCH.

On the 1st day of this, "the third month," occurred the annual meeting of the West Park Commissioners, which was characterized by a lively tussle for supremacy between the Lipe and Woodward factions, and on the 2d nothing of importance occurred,

unless it might be that the various broken banks were actively paying dividends. The 3d was Sunday, and not eventful, but on Monday morning, the 4th, Judge Williams decided that the "Bee-Hive's" Chandler certificates must be used for the benefit of all the depositors, and Judge Rogers, in the David Gage case, ruled out testimony designed to show that the defaulting City Treasurer's deficits occurred during his first term. On the 5th the nineteenth Commencement of the Chicago Medical College took place at Plymouth Church, and the Common Council passed the annual appropriation bill, the total amount appropriated being \$3,992,879. On Wednesday morning, the 6th, the fifth annual convention of the National Butter, Cheese and Egg Association began at the Grand Pacific, and the Leuten season opened, the day being "Ash Wednesday." On Thursday, the 7th, about sixty prisoners were arraigned in the Criminal Court. On the 8th a composition meeting in the Greenebaum bankruptcy matter was held, the creditors being thereat offered 25 cents on the dollar; and Judge Jameson, in the Criminal Court, sentenced Jas. Kennedy, 14 years of age, to five years in the Penitentiary, and Michael Nichold, 17 years old, to a similar term in the Penitentiary—both for burglary. On the morning of the 9th the Chicago & Iowa Railroad was sold under the hammer, the bondholders buying it for \$900,000. On Monday, the 11th, Judge McAllister decreed that the ordinance prohibiting the sale of liquor to minors, being a departure from the city charter, was void; and the Criminal Court refused to grant separate trials to the indicted officers of the Protection Life Insurance Company. The next day, Tuesday, the 12th, the Mayor and heads of departments began a reduction in the number of city employees—firemen and police; the same day the West Side Street Railway Company opened the biggest barn in the United States; and the Chicago journalists passed resolutions of respect to the memory of Charles L. Wilson, late proprietor of the *Evening Journal*, who had died at San Antonio, Tex., on March 9, the Saturday preceding. Wednesday, the 13th, Judge Rogers refused to allow the Gage bond to be withdrawn from the jury; and John Curry, alias "the Kidney," was sentenced to two years in the Penitentiary. Thursday, the 14th, was eventful in that it was the day on which the Marsh Harvester Company was thrown into bankruptcy, and the Common Council, by resolution, requested the Mayor to withhold any order tending to further reduce the Fire and Police Departments. The next day, Friday, the 15th, Mayor Heath, despite the Council, decided to insist upon the reductions as ordered, holding that the interest on the city debt must be paid; the first of the new silver dollars arrived, in the city of Chicago, and a meeting of prominent men was held at the Grand Pacific to organize the Honest-Money League of the Northwest. Saturday, the 16th, the jury in the case of The City against David A. Gage, the defaulting City Treasurer, returned a verdict in favor of the plaintiff, finding Mr. Gage and his bondsmen indebted to the city in the sum of \$1,000,000, and fixing the damages at \$507,703.58. Sunday was "St. Patrick's Day," and notable as the day on which Oliver A. Willard, managing editor of the Chicago *Evening Post*, suddenly passed from life into death. Monday morning, March 18, the journals of the Chicago press reported the death in memory of Mr. Willard, the second comrade who had passed from their midst since the spring began. In the evening the Common Council passed an ordinance requiring street cars to be licensed at \$50 a car. The next day, the 19th, Judge Blodgett enjoined several parties from using the trade-mark of the Singer Sewing Machine Company, and the long-litigated Kingsbury estate came again to the surface in the County Court, on a charge by Mr. J. V. Le Moyne, the new guardian of the heirs, that the property had become insolvent by the mismanagement of the former guardian.
